## Scanning Workshop

**Wednesday 16 Jan 2019**

Are you a person who learns so much more being taught as you are doing the work?

A very limited hands-on workshop is being offered where you can **learn and do scans** of your images with just YOU and the trainer, or share with just ONE other person.

You can either bring in your own scanner and computer, or use my setup - your choice!

There are only 4 sessions available for this highly personalised training. Each session runs for 75mins.

Session 1: 1000 - 1115

Session 2: 1130 - 1245

Session 3: 1315 - 1430

Session 4: 1445 - 1600

### **BOOKINGS for Course 900**
